Contents of Volume 2 1988

Number 1

Group Representation and Its Application to the Analysis of Offshore Concrete Platforms
Lin Shaopei, Qiu Chunhang and Ji Zhen . . . . . (1)

Vibrational Analysis of Free Floating Cylindrical Offshore Platforms
Xi Yuyao . . . . . (13)

Dynamic Stability and Deformation of Offshore Gravity Platform Foundation
Luan Maotian and Jin Chongpan . . . . . (31)

The Strain-Rate Sensitivity of Strength of Bohai Bay One-Year Ice under Uniaxial Compression
Shen Wu and Lin Shuzhi . . . . . (43)

Determination of Dynamic Loading During Launching and Recovering a Submersible
Huang Xiuzhang and Cao Zhiyu . . . . . (51)

Some Considerations on Welding Major Nodes of Grade E Steel in "Kan Tan 3"
Jian Runfu and Chen Zhilong . . . . . (61)

Harbour Resonance due to Long-Period Wave Action
Gu Jialong . . . . . (71)

A Survey of the Treatment of Soft Grounds of Lianyungang Port and Recommendations
Gao Hongxing . . . . . (83)

The Characteristics of Storm Surge in the Yellow River Delta and the Design Height of the Tidal Barrier
Wang Zhihao . . . . . (99)

Study on Underwater Arc Cutting Phenomena and Technological Parameters
Wu Yixiong, Yu Shangzhi, Jiang Huanzhong and Yu Hailiang . . . . . (111)

Exploring the Possibility of Building a Sea-Water Osmotic Pressure Power Plant
Li Yuncai . . . . . (119)

Number 2

The Parametrical Stress Investigation and Reliability Analysis of Tubular T Joints
Chen Tieyun, Chen Bozhen and Wang Youqi . . . . . (1)

Earthquake Responses of Offshore Structures and Effects of Parameters
Zhou Changnian, Sun Fuzhong and Jin Gufei . . . . . (17)

SIF along the Front of Crack of Tubular T-Joint with Initial Surface Crack
Qian Renji, Zheng Xuexiang and Fang Yongliu . . . . . (31)

Numercial Computation of Wave Loads on Two Dimensional Objects by Coupled Element Method
Yang Tong and Xu Xieqing . . . . . (41)

Fire Analysis of Disk Structure on Platform
Fu Yuhua . . . . . (55)

Experimental Study on Maritime Engineering Structures
Zhou Jiabao . . . . . (67)

Model Study and Waterway Improvement of Mawei Harbor
Hu Daren and Jiang Menglin . . . . . (73)

Computation of Dilution of Radioactive Waste and Heat Discharged from Nuclear Power Plant
Han Zhengcui, Cheng Hangping and Geng Zhaoquan . . . . . (89)

Stress Corrosion Cracking of High Strength Steel Wires in a Solution Simulating Prestressed Concrete for Ocean Engineering
Wang Changyi . . . . . (105)

Some Observations of Physiological Functions During Simulated He-O_2 Saturation Diving Experiment at a Depth of 302 m
Shi Zhongyuan, Zhao Deming, Cui Renjin, Wang Xinghua, Jin Zhongsheng and Zheng Gichang . . . . . (119)

Number 3

Locally Nonlinear Stochastic Analysis of Offshore Structures
Tian Qianli, Y.T. Leung and Y.K. Cheung . . . . . (1)

Analysis of Local Earthquake Response for Offshore Platform by Correction Method of Model Superposition
Qu Naisi and Zhang Bin . . . . . (11)

Wave Flow Pattern and Wave Force on Pile Group
Ren Zhuogao, Xiang Qing and He Jun . . . . . (21)

Current-Depth Refraction of Wave Spectra
Li Yucheng and Zhang Chunrong . . . . . (31)

Experimental Studies on the Total Wave Forces Acting on Vertical Circular Cylinders
Zhong Shengyang and Zuo Qihua . . . . . (43)

Irregular Wave Forces on Array of Bi-Pile
Yu Yuxiu and Zhang Ningchuan . . . . . (57)

Measures to Regulate the Sand Bar Outside Shantou Harbour
Huang Jianwei . . . . . (73)

Similar Solutions to Shoreline Evolution Due to Spur Dikes
Tao Mingde . . . . . (91)

Theoretical Calculation and Experiment Research on the Hydrodynamic Performance of Underwater Cables
Lian Lian, Gao Zhixi and Shen Guojian . . . . . (101)

Large Deflection of Submerged Pipelines Laid With an Articulated Stinger
Huang Yuying and Zhu Dashan . . . . . (115)

Number 4

The Behaviour of Tubular Joints with Overlap
Chen Tieyun and Chen Weimin . . . . . (1)

The Stress Analysis of Ring Stiffened Tubular Joints for Offshore Platforms
Chen Buozhen and Gao Junhua . . . . . (15)

Semi-Analytical Solution to the Behaviour of Laterally Loaded Piles
Yan Shuwang and Steinar Nordal . . . . . (27)

Linearized Problem of the Non-Linear Resistance in Structural Reliability Analysis
Cheng Weiru . . . . . (37)

Separation of Time Series of Incident and Reflected Waves in Model Test with Irregular Waves
Fan Qijin . . . . . (45)

Drag and Lift Forces on Square Arrays of Piles in Subcritical Flow
Su Weidong, Zhong Shengyang and Zuo Qihua . . . . . (61)

Investigation of Design Wave Parameters for Chinese Coastal Area
Wang Yanying . . . . . (71)

One-Dimensionized Characteristic Differential Solution of Two-Dimensional Tidal Flow
Luo Hongshou . . . . . (79)

Sampling of Coastal Soft Clay
Wei Rulong, Wang Nianxiang and Chen Xuzhao . . . . . (91)

Application of Image Processing Techniques to Acquirement of Environmental Evaluation Data of Newly Built Harbours
Lin Shenji, Hua Fengying and Miao Lutian . . . . . (105)

China's Harbour Construction for Coal Exportation in the Period of "The Sixth Five-Year-Plan"
Chai Changqing and Gu Minquan . . . . . (113)
